<b>Change Description:</b> To improve Atmel's wafer probe capacity and secure our ability to supply Atmel's GPS baseband products, Atmel is changing the GPS baseband wafer probe test system from a Quartet to a D10 test system. The new test system will be located in Atmel Manila, Philippines test facility instead of Atmel Rousset, France facility. Location and tester system, are the only changes addressed by this change notification – test coverage and evaluation procedures remain the same. All procedures and measures to assure quality remain unchanged.

<b>Proposed First Ship Date*:</b> March 1, 2011  <i>*The Proposed First Ship Date is the forecasted date that a customer may expect to receive changed product. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed product on this date, Atmel will continue to ship pre-changed product until a time in which inventory has been depleted. This may result in pre-changed product being shipped to customers after this forecasted date.</i>
